Health Resource Directory

Infolink

Health Resource Directory

for the people of Derbyshire and Derby City

Updated March 2012

INFOLINK is a mental health resource database which contains information about services, groups and activities that are available to people throughout Derbyshire and Derby City to promote good mental and physical health. The information is collected from many different sources and aims to serve as a useful tool for staff, people who use our services and their families and carers, and other organisations working in partnership.

The information included in this edition has been reviewed and updated for 2012. **INFOLINK** will be reviewed and re-issued regularly.

Updates are held on the Trust website on: www.derbyshirehealthcareft.nhs.uk/, and on our Core Care Standards Website on www.corecarestandards.co.uk

This booklet supports our Core Care Standards, which are detailed inside.

The directory is listed in alphabetical order and is easy to use. A full index can be found at the back of the directory. Inclusion in **INFOLINK** does not imply recommendation or endorsement of any particular service. It is intended as a collection of available information to help staff and out service users and their families and carers plan care.

If you would like any further information about this directory or would like further copies, or would like to amend, add or update any of the entries, please contact:

Core Care Standards and CPA Service,

Our Core Care Standards **You will be involved as much as you want and are able to be**

Services work best when the people who use them are involved in the care process. We will take into account peoples diverse needs, particularly around communication and access. The service will protect your rights, as well as those of other people, and will protect you and others from harm wherever possible.

We will always try to make sure that people are involved as much as they want and are able to be, and have choices wherever possible, but choice may be limited by the services we have been commissioned to provide.

We want to support you to make informed choices through:

- taking part in planning your own care
- considering choices to promote and facilitate your recovery
- being central to the decisions made around your care
- having information to help you make informed choices and decisions

Our Core Care Principles

We will keep information safe and share it when needed, and you will have the right information at the right time

Information For You

To make sure that patients/service users have the information they need to make choices, participate in the care process, make informed decisions, and be truly partners in care, the Trust provides a variety of information including:

- Rights and responsibilities, copies of care plans, contact information, services available, self-help information
- Signposting to relevant agencies and services where needed
- Information required by law
- Benefits and risks of different types of treatment, potential side effects of medication

Using the NHS Choices website, you can create a tailor-made information prescription for particular conditions and illnesses.

Your information prescription tells you about:

- Your condition, your treatment options,
- Care services (from equipment to help you get around the house to specialised exercise classes),
- Benefits you may be able to claim,
- Housing, and support groups.
