

# CHAPLAINCY SERVICE

Hello colleagues,  
just to say that we are  
always here for you  
if you would like to  
chat to one  
of our team....

# CHAPLAINCY SERVICE

We all experience different pressures and stresses in our lives. If you have any issues that you may want to share, please be assured that we offer a confidential service, providing a listening ear and seeking to enable a person to engage with whatever issues concern them.

The Chaplaincy team are located both at Kingsway Hospital and at the Hartington Unit. However, the Service is available to staff throughout the area covered by the Derbyshire Healthcare Foundation Trust and we endeavour to respond to any member of staff who feels that they might benefit from contact with the Service.

Our remit covers a wide spectrum of concerns and we are committed to support members of staff from all backgrounds - those with a lot of faith, a little faith or no faith. We can also put you in touch with appropriate support if that would be helpful to you.

Please do not hesitate to contact us...happy to help.

Making a  
**positive**  
difference
